Ability First Australia is a strategic alliance of Australia's leading disability organisations. It's aim is to ensure that every Australian living with disabilities, and their families, have access to programs that maximise their potential by creating opportunities for them to make their own choices. The service providers that form the core of Ability First Australia are some of the oldest and most respected not for profit service providers. They have been focused on providing outstanding services to people with disabilities from as early as the 1920's, when the polio epidemic affected many children around the globe. Today, these organisations provide innovative and responsive services aimed at meeting the needs of people living with a wide range of disabilities (rare or other).

**RSVP: Forms and payment details are required by
